

Reconstruction of a Survivor is a non-profit breast cancer organization that sponsors many services for women who are diagnosed with breast cancer and survivors alike.

We especially take pride in the support group programs we provide. The individuals who participate are sure to experience hope, discover a new belief which translates to healing and a better future for attendees.

Mission: To improve the lives of those impacted by breast cancer. We carry this mission out through support group sessions that address the physical, emotional, and spiritual well-being of breast cancer patients.

Vision: Reconstruction of a Survivor's vision is that all women diagnosed with breast cancer experience a better quality of life after their diagnosis.

Have you been diagnosed with breast cancer and you don't know what to do next, where to go or who to talk to? We have a place for you to feed your mind, uplift your spirits and brighten your future!

We provide support groups for participants to:

- Obtain knowledge and wisdom about adequate diagnosis, treatment, and beyond
- Receive emotional support through support group sessions and life coaching for emotional healing
- Reach out and help other women experiencing the effects of breast cancer and support them.

For more information on our support group locations, contact us below.
